

TRANSITION MANAGEMENT

CHANGE IN ASSET OPERATOR

BACKGROUND

Threepwood Consulting were requested to carry out the role of Transition Manager when 3 separate OFTO sites had a change of operator.

A critical consideration of the project was for the operation of the OFTOs' assets to continue as normal during the transition period.

Threepwood Consulting successfully managed the transition programme, ensuring there was no health and safety impact, availability of system plant and apparatus was maintained, and compliance with the System Operator Transmission Owner Code (STC) was upheld.

- CLIENT SATISFACTION
- END TO END CONTROL
- CONTINUOUS MONITORING
- QUALITY MANAGEMENT

OBJECTIVES

Step-by-step Transition Planning and Scheduling

Smooth and successful O&M Operator transition
